Activities description

Four Seasons Room

(Projection room)

- Projection about the Lake Saint-Pierre Biosphere Reserve, an environment that presents exceptional flora and fauna of great diversity.
Duration: 12 minutes

H₂O Room

- Under water atmosphere to observe small and large fish of the St. Lawrence River. The diversity is impressive.
- The snapping turtle is the largest soft water turtle in Quebec.

Sensory Corridor

- Your sight, hearing, smell and touch will be used through interactive activities.
- "Mustelids exhibition: mammals that smell!" (skunk and ferret)

Exploration Room

- "The Beaver, a surprising forest engineer"
- Presentations on arthropods (with living specimens) and cervidae.

Discovery Room

(Indigenous and exotic reptiles)

- Come touch a snake, if you can!
- Exotic star species and their Quebec cousins.

The Lake Ecosystem

(Otter habitat)

- Come see otters, racoon, turtles and frogs in their natural habitat.

Sensory Room

- Combined activity: Sensory Corridor, mustelids and The Lake Ecosystem.

Wings & Beaks

- Presentation on birds adaptations with stuffed specimens.

Observation Paths

- Flora and fauna interpretation.
- Rally.

Observation Paths (winter)

- Rally (maintained trails).
- Flora and fauna interpretation.
- Bird watching.

At the Shack...

- Workshop at the forest observation station.

Biotrain (May 22nd to October 31st)

- Safe and ecological carrier, in which a qualified and dynamic guide will point out all the wonders of our splendid forest.
- Some restrictions apply.

Orchard (fall)

- Picking of an apple bag (about 3 lb).
- Presentation adapted to participants' age.
